Aug 22 2021 Voyage of the Sable Venus Sep 30 2019 Robin Coste Lewis's electrifying collection is a

trptych that begins and ends with lyric poems meditating on the roles desire and race play in the construction of the self. In the center of the collection is the title poem, "Voyage of the Sable Venus," an amazing narrative made up entirely of titles of artworks from ancient times to the present-titles that feature or in some way comment on the black female figure in Western art. Bracketed by Lewis's own autobiographical poems, "Voyage" is a tender and shocking meditation on the fragmentary mysteries of stereotype, juxtaposing our names for things with what we actually see and know. A new understanding of biography and the self, this collection questions just where, historically, do ideas about the black female figure truly begin-five hundred years ago, five thousand, or even longer? And what role did art play in this ancient, often heinous story? Here we meet a poet who adores her culture and the beauty to be found within it. Yet she is also a cultural critic alert to the nuances of race and desire-how they define us all, including her own sometimes painful history. Lewis's book is a thrilling aesthetic anthem to the complexity of race-a full embrace of its pleasure and horror, in equal parts.

The Wild Horses of Sable Island Mar 17 2021 Sable Island, a small island off the coast of eastern Canada, is the site of some 500 wild horses, 500 shipwrecks, and 500 years of known history. Never settled, the island, also known as the "Graveyard of the Atlantic," has seen temporary occupation by shipwrecked sailors, transported convicts, pirates, and wreckers. The wild horses, named for the island they inhabit, abandoned there long ago or cast ashore from wrecks, are now the only terrestrial mammals on Sable Island. Roeberto Dutesco's twenty years' documentation of Sable Island comes to you as a stunning volume of photographs, an unprecedented collection of extraordinary moments in a place uninhabited by humans, where the wild horses run free, unaware and unafraid of man. Dutesco portrays the wild beauty of these horses as well as the barren and unspoiled quality of the island, creating an immersive photographic memoir that captures the soul and spirit. The Romanian-born Canadian photographer's aim is to document and record this enchanted place for posterity, for our children's children, as an important place in Earth's history, and more so in our current moment, when unique wild places are vanishing. It is Dutesco's life project, celebrating the beauty he encountered in a place forgotten by time, desire, and

conquest--Sable Island.

Trout Water May 07 2020 "Josh Greenberg is my kind of nature writer."—The Wall Street Journal It's the beginning of trout fishing season, and Josh Greenberg — proprietor of one of the nation's most famous fishing outfitters, on America's most iconic trout-fishing stream, the Au Sable River in Michigan —is standing in the Au Sable at dusk when he gets the call that a dear fishing buddy has died. The solace he takes from fishing — from reading the movement of the river water, studying the play of the light, and relying on his knowledge of insect and fish life — prompts him to reflect on the impact of the natural world on his life in his fisherman's journal. Over the course of a year, the journal transcends fishing notes to include some beautifully lyrical nature writing, entertaining stories of the big one that got away, cheerful introspection about a love that's hard to explain, and yes, a tip or two. Eventually, Josh Greenberg realizes he hasn't been all alone in the woods, not really. Much of his relationship with his family and friends has played out on the river. And as he catches — and releases — trout after trout back into one of the most beautiful rivers in America, Greenberg comes to help us realize, too, that there's more to fishing than catching fish.

Sable Island Apr 05 2020 Sable Island is the world's most mysterious and notorious sandbar, situated 160 kilometers offshore of southeast Nova Scotia. The island is currently receiving much renewed attention because of proposals to make it a National Park, or a National Wilderness Area. Known for centuries as "The Graveyard of the Atlantic," its forty-kilometre length has claimed over five hundred ships since the earliest adventurers and fishing vessels sailed to North America. Even today Sable presents serious problems to navigators. The home of the world's last herds of wild horses, the island is a fragile, shifting crescent of sand and grass whose beauty and violence has fascinated and inspired countless adventurers, writers, artists and scientists for over three hundred years. Bruce Armstrong takes the reader on a personal journey to Sable. He brings to life the early shipwrecks, lifesaving establishments and settlement attempts that have marked the island's long and varied history. There are ghost stories, tales of exceptional bravery, and first-hand impressions of the island left by men and women such as Sir Humphrey Gilbert, Dorothea Dix and Alexander Graham Bell. Contemporary material about Sable is based on interviews with some of the people who live in this lonely place as lifesavers, wireless operators, conservationists, and scientific observers; their experiences contribute an immediate sense of Sable's spirit and power. Many new colour photographs by island researcher Zoe Lucas are featured in this new edition. Sable Island is an imaginative and exciting journey to the world's northern Galapagos. It is also an eloquent plea for the preservation of a unique and timeless part of Nova Scotia. Sable Island was awarded the Evelyn Richardson Prize, the pre-eminent award for non-fiction in Atlantic Canada.
