Lean Thinking Feb 13 2021 *Lean Thinking* was launched in the fall of 1996, just in time for the recession of 1997. It told the story of how American, European, and Japanese firms applied a simple set of principles called 'lean thinking' to survive the recession of 1991 and grow steadily in sales and profits through 1996. Even though the recession of 1997 never happened, companies were starving for information on how to make themselves leaner and more efficient. Now we are dealing with the recession of 2001 and the financial meltdown of 2002. So what happened to the exemplar firms profiled in *Lean Thinking*? In the new fully revised edition of this bestselling book those pioneering lean thinkers are brought up to date. Authors James Womack and Daniel Jones offer new guidelines for lean thinking firms and bring their groundbreaking practices to a brand new generation of companies that are looking to stay one step ahead of the competition.

Artists discussed include: Rashid Araeen, Conrad and Terry Atkinson, Joseph Beuys, Derek Boshier, Stuart Brisley, Victor Burgin, John Druggar, Gilbert and George, Margaret Harrison, Derek Jarman, John Latham, Mary Kelly, Bruce McLean, David Madalla, Jamie Reid, Jo Spence.
