Historic Neighborhoods of Baton Rouge Sep 03 2022 Baton Rouge is known for its rich history, food, politics, music and universities. Perhaps overlooked are the stories of how this large port city's close-knit neighborhoods have adapted to changes over the years. Annabelle Armstrong deftly navigates the evolution of these historic communities, showcasing southern charm and romanticism through firsthand accounts of people who call these places home. Journey back to the beginnings of Hundred Oaks, Capital Heights, University Acres, Wimbledon, Tara, Inniswold, Glenwood, Walnut Hills, Stratford, Steele Place, Broussard, Southdowns and many more popular places to settle down.

West Baton Rouge Parish Nov 12 2020 West Baton Rouge Parish was established in 1807 along the banks of the Mississippi River across from what would become Louisiana's capital. Its connection to the river has long been an attraction for the people who live here and the pioneers who first settled the area more than 200 years ago. Today, the parish has three incorporated towns--Addis, Brusly, and Port Allen. Because of the rich alluvial soil deposited by the Mississippi River, West Baton Rouge largely became an agricultural community; sugar has always been its biggest crop. In the early 20th century, the Texas & Pacific Railroad made the community a bustling hub. Over the years, West Baton Rouge's position along the river attracted petrochemical companies like Dow, ShinTech, and Placid Refining Company. Now, the parish has one of the largest deepwater ports and a thriving major chemical and manufacturing industry.

Atchafalaya Houseboat Jul 01 2022 In the early 1970s, two idealistic young people -- Gwen Carpenter Roland and Calvin Voisin -- decided to leave civilization and re-create the vanished simple life of their great-grandparents in the heart of Louisiana's million-acre Atchafalaya River Basin Swamp. Armed with a box of crayons and a book called How to Build Your

Home in the Woods, they drew up plans to recycle a slave-built structure into a houseboat. Without power tools or building experience they constructed a floating dwelling complete with a brick fireplace. Towed deep into the sleepy waters of Bloody Bayou, it was their home for eight years. This is the tale of the not-so-simple life they made together -- days spent fishing, trading, making wine, growing food, and growing up -- told by Gwen with grace, economy, and eloquence. Not long after they took up swamp living, Gwen and Calvin met a young photographer named C. C. Lockwood, who shared their "back to the earth" values. His photographs of the couple going about their daily routine were published in National Geographic magazine, bringing them unexpected fame. More than a quarter of a century later, after Gwen and Calvin had long since parted, one of Lockwood's photos of them appeared in a National Geographic collector's edition entitled 100 Best Pictures Unpublished - and kindled the interest of a new generation. With quiet wisdom, Gwen recounts her eight-year voyage of discovery -- about swamp life, wildlife, and herself. A keen observer of both the natural world and the ways of human beings, she transports readers to an unfamiliar and exotic place.

Abandoned Baton Rouge Apr 29 2022 Around Louisiana's state capital, structures sit abandoned for years. Some of them hold memories, some hold clues to the city's history. With subjects ranging from antebellum to agri-industrial, from a rickety single-room shack to one of Huey Long's pet projects, to the last gasps of a grand ballroom, this travelogue of decay reveals some of that history and at times, some insight to the city that is today. In *Abandoned Baton Rouge*, discover what's been going on in forgotten spaces when no one else was looking. Learn about the establishments that once were, the high times and the low crimes. Meet the people who loved the places and find out what they kept as souvenirs. Captured in photos before they were gone are Baton Rouge institutions like The Bellemont Motor Hotel, and that ordinary building on Oklahoma Street that helped to make LSU athletics extraordinary. More than 130 images show how these places looked when they were new, not-so-new, abandoned, and on their way out of existence.

The Homes of Baton Rouge Sep 30 2019 **The Battle of Baton Rouge** May 31 2022

They are waiting for battle and listening carefully for the sound of the long roll. At your speed you are now at North Street. In the far distance to your left are nine cannon lined up wheel to wheel at the old Orphanage. Out of the corner of your right eye you can see something rising over the levee and heading over your head. These are huge eleven-inch cannon balls from the ironclad ram U.S.S. Essex. They are exploding around North 22nd Street. Stay off the bridge. Keep straight. Slow down. Look to your right. You may be able to see flags waving off the masts of Union gunboats on the river. One mile to your left, in a deteriorating neighborhood, a battle is raging. Let down your window and listen to the rumble of Yankee cannon. Hear the sharp barking of Rebel cannon. The sound is different because they are pointed at you! At 60 mph history will fly by you.

The Multivillage-Metropolis Baton Rouge Dec 26 2021 The capital of Louisiana, Baton Rouge, has been the scene of fundamental changes in recent decades. In the context of the tripole of petrochemistry, Louisiana State University (LSU) and public administration (especially of the state of Louisiana), which has been fully developed since the end of the 1920s, general processes (such as the transition from modern to post-modern spatial development) mix with specific local and regional characteristics and logics, also in dealing with spaces (such as the eccentric location of the downtown area, the limited influence of spatial planning). The result is a social-spatial formation of a 'multivillage metropolis'. The investigation of this 'multivillage metropolis' follows a neopragmatic approach that triangulates different theories, methods, data and researcher perspectives. Baseball in Baton Rouge Oct 04 2022 Baton Rouge has always been a baseball town. The game was played by occupying Union troops during the Civil War, continued during the Reconstruction Period, and marched forward with the Louisiana State University Tigers in the 1890s. LSU would become one of the winningest teams in the history of the College World Series. Baton Rouge has hosted Southern University's Jaguars and a variety of minor leagues, including the famous Evangeline League, as well as the powerhouse Esso team.

An epidemic, floods, the Great Depression, and decades of racial tension have all impacted baseball in this city, but the game has endured. **Above Baton Rouge** Dec 02 2019 In *Above Baton Rouge*, photographer and pilot Fred C. Frey, Jr., offers a breathtaking bird's-eye view of the development of Louisiana's capital city over time. Vivid pairs of black-and-white aerial photographs taken from similar angles and altitudes forty years apart reveal stunning, sweeping changes that might be taken for granted at eye level, providing a one-of-a-kind visual chronicle of Baton Rouge then and now. In the early 1960s, Frey began taking aerial photographs of Baton Rouge sites to help evaluate their potential for possible real estate developments. What started as an innovative business practice soon developed into an ongoing passion for viewing and capturing his hometown from above as it experienced explosive growth over the next forty years. A skilled aviator and Korean War veteran, Frey would bank his Cessna 150, pop open the window, and -- with both hands on the camera -- snap vivid pictures. He honed his compositions, always searching for familiar landmarks, major intersections, and distinctive buildings. Over time, Frey amassed a cache of more than five thousand negatives. Frey documents the enormous strides Baton Rouge has taken since the 1960s: developers clearing vast forests to make way for massive new subdivisions and shopping districts; a downtown resurrecting itself in the face of unprecedented suburban competition; LSU and Southern University extending their footprints; refineries and chemical plants expanding Baton Rouge's industrial corridor; and the interstate system steadily carving a path through the parish. In the early 1990s, Frey realized the value of his images, many of which depicted aspects of Baton Rouge no longer in existence. He began in earnest to create modern counterparts to his earliest photographs in order to illustrate how much had changed. The astounding results show fledgling subdivisions surrounded by pastures transforming into sprawling communities. Two-lane country roads ballooned into six- and eight-lane thoroughfares, straddled by mile after mile of commercial development. Frey took every photograph in this book with the same beloved Hasselblad camera system he bought in 1962. *Above Baton Rouge* therefore offers a unique yet consistent perspective on the metropolitan area's ever-changing landscape. Illuminating text by Tom Guarisco points out key landmarks and features and draws attention to striking differences between companion photos. Frey's masterfully shot aerial photography gives proof to Baton Rouge's boundless energy and industry -- and its thirst for new places to live, work, shop, and play.

Old South Baton Rouge Sep 22 2021 Old South Baton Rouge is the culmination of diligent archival research and more than ten years of collecting oral histories about the Old South

Baton Rouge community, including McKinley High School, the Baton Rouge Bus Boycott, the once-thriving OSBR business corridor, and the numerous churches and civic groups of the neighborhood.

Andrew D. Lytle's Baton Rouge Dec 14 2020 Andrew David Lytle produced thousands of photographic images in the sixty years during which he lived in Baton Rouge and operated Lytle Studio. His heirs, alas, reportedly shattered his glass-plate negatives by dropping them down a dry well soon after his death, not realizing their value. Andrew D. Lytle's Baton Rouge preserves some of the only images that remain, a vintage treasure for contemporary viewers. These 120 photographs give entrée into life in Louisiana's capital city from the 1860s through the early 1900s. They compose the largest extant collection of photos created in a professional studio in nineteenth-century Baton Rouge. Together they capture the day-to-day existence of the community, fleeting moments of great importance, and long-term changes over time, revealing not only the perceptions of the photographer but also the self-perceptions of his subjects. In a superb introductory overview of the collection, Mark E. Martin recounts Lytle's life and career within the context of Baton Rouge history and culture, noting advances in camera and printing technologies. Martin then discusses the photographs thematically, beginning with Baton Rouge's occupation by Federal forces during the Civil War. Thousands of northern soldiers and sailors came through the city during that time, and Lytle, a native of Ohio, photographed them in his studio, on the riverfront, in camps, on boats and ships, and from a bird's-eye view atop buildings. This work brought Lytle fame fifty years later when select images were published in *The Photographic History of the Civil War* along with the claim that Lytle had been a secret agent, a "camera spy," for the Confederacy. Martin exposes the impossibility of this popular belief, which nonetheless persisted well into the twentieth century. Over the years Lytle Studio, which Andrew's son Howard eventually joined, produced commercial images of the Louisiana State Penitentiary, the forestry industry, railways and waterways, LSU sports teams, outdoor landscapes, and individuals. Andrew Lytle was more than a studio photographer, though. A husband, father, and grandfather, he took an active role in the community as an entrepreneur; volunteer firefighter; member of religious, social, and fraternal organizations; and participant in local theatrical productions and other entertainments. His photography provides in many cases the only visual record of the life and times of Baton Rouge and its people in that period. Much of what is depicted in Andrew D. Lytle's Baton Rouge remains central to the city's vitality today: politics, family, home, commerce and industry, social events, parades, LSU sports, and the riverfront (now with levees). Readers will find here a priceless glimpse at a bygone world, yet one still recognizable.

Slim Harpo Jun 19 2021 As Louis Armstrong forever tethered jazz to New Orleans and Clifton Chenier fixed Lafayette as home to zydeco, Slim Harpo established Baton Rouge as a base for the blues. In the only complete biography of this internationally renowned

blues singer and musician, Martin Hawkins traces Harpo's rural upbringing near Louisiana's capital, his professional development fostered by the local music scene, and his national success with R&B hits like *Rainin' in My Heart*, *Baby Scratch My Back*, and *I'm A King Bee*, among others. Hawkins follows Harpo's global musical impact from the early 1960s to today and offers a detailed look at the nature of the independent recording business that enabled his remarkable legacy. With new research and interviews, Hawkins fills in previous biographical gaps and redresses misinformation about Harpo's life. In addition to weaving the musician's career into the lives of other Louisiana blues players—including Lightnin' Slim, Lazy Lester, and Silas Hogan—the author discusses the pioneering role of Crowley, Louisiana, record producer J. D. Miller and illustrates how Excello Records in Nashville brought national attention to Harpo's music recorded in Louisiana. This engaging narrative examines Harpo's various recording sessions and provides a detailed discography, as well as a list of blues-related records by fellow Baton Rouge artists. *Slim Harpo: Blues King Bee of Baton Rouge* will stand as the ultimate resource on the musician's life and the rich history of Baton Rouge's blues heritage.

We Were Merchants Jul 21 2021 The words "Goudchaux's/Maison Blanche" conjure up a wealth of fond memories for local shoppers. At this landmark Louisiana department store, clerks greeted you by name; children received a nickel to buy a Coke and for every report-card A; families anticipated the holiday arrival of the beloved puppet Mr. Bingle almost as much as Santa; teenagers applied for their first job; and customers enjoyed interest-free charge accounts and personal assistance selecting attire and gifts for the most significant occasions in life -- baptisms, funerals, and everything in between. While most former patrons have a favorite story to tell about Goudchaux's/Maison Blanche, not many know the personal tale behind this beloved institution. In *We Were Merchants*, Hans Sternberg provides a captivating account of how his parents, Erich and Lea, fled from Nazi Germany to the United States, embraced their new home, and together with their children built Goudchaux's into a Baton Rouge legend that eventually became Goudchaux's/Maison Blanche -- an independent retail force during the golden era of the department store and, by 1989, the largest family-owned department store in America. With a mercantile line extending back five generations to a small shop in eighteenth-century Germany, the Sternbergs were born to be shopkeepers. In 1936, as Nazi harassment of Jews intensified, Erich smuggled \$24,000 out of Germany and settled in Baton Rouge. His wife and three children joined him a year later, and in 1939, Erich bought Goudchaux's and set about transforming it from a nondescript apparel shop into a true department store. He made buying trips to New York for quality fashions and furs, introduced imaginative sales promotions, and coached his staff in impeccable customer service, while also training his children to follow in his footsteps. Hans details the manifold challenges of operating the store -- from planning financial strategies and creating marketing campaigns to

implementing desegregation and accommodating the repeal of blue laws. Through many transforming events -- Erich's death in 1965, expansion into suburban shopping malls, the purchase in the 1980s of New Orleans retail icon Maison Blanche -- the Sternbergs successfully maintained the company's core values: quality merchandise, employee loyalty, and superior customer service. At its height, Goudchaux's/Maison Blanche operated twenty-four stores in Louisiana and Florida and employed more than 8,000 people. With the economic downturn of the early 1990s, Hans made the difficult decision to sell the business, thus bringing to an end the Sternbergs' centuries-long mercantile tradition. Supplementing the fascinating narrative are the recollections of former customers and employees, a wealth of pertinent photos, and even Hans's tried-and-true guidelines for negotiating a business transaction. At once a family, business, and community story, *We Were Merchants* richly recalls a bygone era when department stores were near-magical wonderlands and family businesses commanded the retail landscape.

The Baton Rouge Bus Boycott: The Mark That Could Not Be Erased Mar 17 2021 The Baton Rouge Bus Boycott was the first large-scale bus boycott by Blacks of the segregated bus system in the United States. In June of 1953, Martha White, who was a 23-year-old Black housekeeper, refused to move from the Whites Only Section of the city-owned segregated bus. The Black church and community came together both legally and physically. Within days, the impact to the city-owned segregated buses demanded public policy changes in Baton Rouge. Discover how hidden figures like Martha White and unsung heroes of the Baton Rouge Bus Boycott created the blueprint for the Free Ride System. This is a coloring book of a poem that reflects people around that time, historical places, and sequential events of the Baton Rouge Bus Boycott in Baton Rouge, Louisiana. Two years later in 1955, Rosa Parks was arrested for sitting in the Whites Only section of a segregated bus. Consequently, Dr. Martin Luther King Jr. led a 13-month bus boycott in Montgomery, Alabama modeled after the Baton Rouge Bus Boycott's blueprint. The Montgomery Bus Boycott ended when the Supreme Court ruled segregation on public buses was unconstitutional.

Forgotten Baton Rouge Nov 05 2022

Discover Baton Rouge's bygone days of booming growth and the influence of its renowned residents. For nearly two centuries, Baton Rouge remained a sleepy little river town. Situated on the first bluffs of the Mississippi River north of the Gulf of Mexico, it was prime real estate for habitation. Images of America: Forgotten Baton Rouge collects a plethora of lost images of this city's greatest period of expansion: from the 1890s to the 1930s. This era began when Louisiana State University moved to the grounds of the old US Army arsenal, followed by a corporate decision from John D. Rockefeller to build a Standard Oil Company refinery at Baton Rouge. These historic decisions, coupled with the forward-thinking actions of bold businessmen and politicians like Robert A. Hart and Huey P. Long, changed the face of the city forever.

Capitol Park and Spanish Town Apr 05 2020 The land north of downtown Baton Rouge between the Mississippi River and Interstate 10 encompasses the first high ground north of the mouth of the Mississippi. As the oldest neighborhood in the city, Spanish Town is widely considered to be the heart and soul of Baton Rouge. France, England, and Spain disputed the land for over 100 years, and in 1779 the English fought the Spanish and their American allies to secure it. Over the past 200 years, the area has been the home of an Army garrison, the campus of Louisiana State University, and Louisiana's magnificent state capitol building and surrounding Capitol Park. Today, Spanish Town's residents are notably diverse, and the neighborhood claims to host the largest Mardi Gras celebration in Baton Rouge.

Historic Photos of Baton Rouge Feb 25 2022

With a history tied to the Mississippi River, Baton Rouge has grown from its colonial past as a military outpost favored by the French, English, and Spanish, in turn, into an American city of modern industry and rich diversity. Through the years, the people of Baton Rouge have weathered travails while developing a unique culture and city. Baton Rouge has seen occupation during the Civil War, the destruction by fire and reconstruction of the state capitol, catastrophic flooding, and political and civil conflict--but also the economic impact of a growing port, the historic arrivals of Louisiana State University and Southern University, and the joyful rituals of Saturday football and the Washington's Birthday Firemen's Parade. Telling the city's story in words and vivid black and white, *Historic Photos of Baton Rouge* documents 100-plus years in the life of the "Red Stick" as only the camera can capture it--one engaging image at a time.

Baton Rouge Mar 29 2022 In 1699, on a high bluff along the Mississippi River, explorer Pierre Le Moyne, Sieur d'Iberville, found the fabled "Red Stick," a post that marked the line between two Native American nations and gave Baton Rouge, Louisiana, its name. This book chronicles 150 years of the daily activities of Baton Rouge's residents through images of the city's growth and development; life during the

Civil War, floods, hurricanes, and economic depressions; and people working, playing, and celebrating.

A History of Baton Rouge, 1699-1812 Aug 22 2021 On March 17, 1699, a group of French explorers under Pierre le Moyne, Sieur d'Iberville, were making their way up the Mississippi River from New Orleans when they spotted a red pole on a high bluff overlooking the river. The pole marked the boundary between the hunting grounds of the Houma and the Bayagoula Indians, and the Frenchmen christened it le baton rouge. The name Baton Rouge has survived, despite several attempts to change it, and today it designates the capital of a state whose people, by 1812, had lived under four flags -- French, English, Spanish, and American. Despite its tiny size, the settlement at Baton Rouge was a strategic outpost on the Mississippi River, and a number of fierce

contests were waged for its control. In fact, the only battle of the American Revolution fought in Louisiana took place at Baton Rouge in 1779. In *A History of Baton Rouge* Rose Meyers has gathered, evaluated, and set down the stories, legends, facts, and circumstances of the founding of Baton Rouge; its troubled history under the colonial governments of France, England, and Spain; and its eventual entry into the Union in 1812. Featured in the book are portraits of early civil and military leaders and maps dating back to the French colonial period.

Baton Rouge Cemeteries Jan 15 2021 For many immigrants to Baton Rouge, being buried in the highlands of their European homes was a dream. Recognizing that this desire was unlikely to come to fruition, they christened the bluff above the Mississippi River south of the town as "Highland" and established Highland Cemetery in 1819. The military fort had a burial ground; churches established cemeteries; owners, family members, and slaves were buried on the plantations; towns offered municipal cemeteries and paupers' plots; and families distant from towns created family cemeteries. Magnolia Cemetery was established for white citizens in 1852. Sweet Olive and the Lutheran Cemeteries were for free people of color and slaves. St. Joseph's Catholic Cemetery, established in 1826, did not discriminate on race but on religious affiliation, as did the Jewish cemetery. Civil War Union soldiers were separated from Confederates buried in Magnolia Cemetery and interred in the Baton Rouge National Cemetery. In 1921, Roselawn Park Cemetery represented the beginning of cemeteries as business. Beautiful statuary, elaborate tombstones and memorials, unique monuments to the departed, and lush gardens accentuate Baton Rouge's cities of the dead.

Enchantment in Atl Apr 17 2021 This narrative is about the death of a mother with four young daughters—two of them teenagers—and three sons in the navy. One daughter was in college at Delaware State University and was betrayed by a special college friend, which caused a dramatic breakup between the two. With tears in her eyes and a saddened broken heart, the older sister, Marian, sacrificed everything back home, including leaving her two younger sisters, to complete her education in Atlanta,

Georgia. With the help of the Holy Spirit and a newfound relationship, which became her husband, Marian began to heal and become whole again. Toward the later years of her life, she revisits her earlier years of difficulties and hardships and ponders how far she and her family have come. She realizes that the most important side of life is that God will be there with us always. Just pray!

A Confederate Girl's Diary Mar 05 2020 Life in Baton Rouge, New Orleans, etc., 1862-1865. West Baton Rouge Parish, Louisiana Feb 13 2021

South Baton Rouge May 19 2021 Founded in 1699, Baton Rouge was the site of countless historic events and the home to many people, including those of African ancestry. South Baton Rouge is an African American community located in Baton Rouge. It was one of the first places African Americans could receive a high school education in the state. The three-mile community around historic McKinley High School was the site of the nation's first successful bus boycott. When laws restricted where African Americans could live, work, learn, and play, South Baton Rouge was a refuge. African American restaurants, theaters, gas stations, and other businesses populated the community, and change-makers, including African American lawyers, judges, clergy, educators, and nurses, helped to sustain the community and other portions of the southern half of Louisiana's capital through the end of legal segregation and beyond.

The Levee Jan 27 2022 A true-crime writer returns home to solve the mystery that haunted his boyhood. After witnessing an execution, true-crime writer Colin Douglas starts having nightmares of himself as a boy, alone by the levee, trapped in the mud of the Mississippi River. Each night, the dreams grow worse, becoming horrid recreations of the day his childhood died. In 1959, Colin and three friends went camping on the levee, across from the tumbledown old Windsong plantation. When one of the boys disappeared, Colin went searching for him, and was approaching the old estate when he saw what appeared to be a ghost. The next day, he learned a woman had been murdered in the area—an unsolved crime that has haunted him ever since. Decades later, he attempts to solve this forgotten cold case, raking up something even dirtier than the muddy bottom of the Mississippi.
